## FINAL TECHNICAL AND FISCAL REPORT

Grant Number: AFOSR-85-0262

TITLE: Applications of some new ideas on irreversible

processes to particular fluids.

PRINCIPAL INVESTIGATOR: Clifford A. Truesdell

The proposal for the above-referenced grant set forth a program of research for three years, the first of which was to be used in a survey of the available literature, methods, and results concerning flows of fluids of grade 2, with special reference to the sign of the coefficient  $\alpha$ , .

This activity was completed as planned for the first year.

The proposed second and third years were not funded.
